

# Be the Fire

**D G D**

Once upon a tree, the Son of God made peace

**G D Asus G**

Now by his wounds we're healed, and by his grace we're free

**D G D**

Shadows before him flee, for light abounds in thee

**G D Asus D**

And in him we find true life indeed

**G D Asus Bm7**

Now to Him who reigns, forever and always

**G D Asus D**

Be the fire within our hearts we pray

**G D Asus Bm7**

In His grace we stand, safe in His nail torn hands

**G D Asus D**

O, be the fire within our hearts we pray

**G D Asus D**

Yes, be the fire within our hearts always

Rescued from death's dark grave, into the arms of grace

Our sin is cast away, atonement fully made

Now through the fields and towns, let's make a mighty sound

Singing the praises of this grace we've found

Now all glory be, to the one wise King

Lay down your crowns and sing, to Him who calms the seas

Lift up your eyes and see, the dawn rising in the east

With our king coming in victory

**D/F# G Asus Bm**

Now to him who saved our souls

**D/F# G Asus D**

Who broke the power of death's dark hold

**D/F# G Asus Bm**

We offer all our lives and hearts

**D/F# G Asus D**

Be glorified in every part
